# Netflix Meets IMDB

5<sup>th</sup> December 2022

badabingbadaboom contributors: Matthew Leopold, Heather Adams, Tanner Hunter

## Proposal

### Sources

1. <https://www.kaggle.com/datasets/gorochu/complete-imdb-movies-dataset>
2. <https://www.kaggle.com/datasets/shivamb/netflix-shows>

### About Our Combined Dataset

Our data will be loaded into a relational SQL database.

### Description

Through our datasets, we expect to find the highest rated movies within certain release years. We also expect to find the lowest rated movies within those years.
